## Hydro Systems Company and Agri-Pro Enterprises Announce Strategic Alliance

*Alliance Formed to Deliver High-Quality Medicators and Customer Service in the Animal Health Industry*

**Cincinnati, OH, January 20, 2014** - Hydro Systems Company and Agri-Pro Enterprises have entered into a strategic alliance to provide medicators to the Animal Health Industry in the United States. Hydro Systems Company is the world's largest independent manufacturer of chemical injecting, proportioning, dispensing equipment. Agri-Pro Enterprises is well known for being the one source supplier of quality veterinary products and providing prompt, courteous customer service to their distributor partners.

Under the agreement, Agri-Pro Enterprises will offer Hydro Systems' line of quality medicators to their distributor partners. For Hydro's current customers very little will change. Current customers will still purchase all of our quality product offerings at the same price through Hydro Systems. The big benefit to customers is that the alliance offers many more options for service and support on a nation-wide basis.

"At Hydro Systems, we are very excited to be teaming up with Agri-Pro. Agri-Pro brings to us many years of service and knowledge in the Animal Health Industry. Their reputation for representing only the highest quality products was a key reason for our decision to work together. We believe this alliance will give our customers access to the highest quality products and service in the industry," said Matt Hayas, Director, Volumetric Brand at Hydro Systems.
