

Bio-Security Solutions

Disinfect Your Barn, Stall, or Trailer With Foam

Foam cleaning is highly effective

There's no more effective and efficient method than foam cleaning. Foam cleaning allows the cleaning solution to remain in contact with the soil load for an extended time period, while allowing you to clean hard-to-reach areas not always accessible by standard cleaning methods. It also avoids the damage done to walls and equipment by high pressure equipment.

Sanitize Horse Barns, Stalls and Trailers

Keeping the barn clean and free of bio-security hazards is imperative when raising animals. Foam cleaning increases chemical contact time, providing a deeper clean and a reduced chance of bio-security hazards.

Agri-Pro offers several unique systems for foam cleaning. Some work on as little as 1.2 gallons per minute water flow, and compressed air pressure of 40 psi (3bar or 3kg).

FoamMaster power cleaning systems automatically dilutes concentrated cleaning products with water, and uses compressed air to generate a thick, rich, clinging foam.

HydroFoamer offers easy, automatic dilution with convenient control of where foam is applied.

HydroChem dispenses concentrated chemical in a foaming or spraying mode.

Ask your APE representative how the Hydro Foamers can work for you.

Further Information

FoamMaster Models

Model	Description
865	FoamMaster, drum mount
897	FoamMaster, single product - wall mount (standard) or cart mount* (optional) 1.2 GPM
898	FoamMaster, single product - wall mount (standard) or cart mount* (optional) 2.4 GPM
899	FoamMaster, two product - wall mount (standard) or cart mount* (optional) 1.2 GPM

Options and Accessories

Model	Description
10090910	Molded bung adapter kit available with longer 2" NPT threads for drums with deeper recess (model 865 only)

*Contact your sales representative for more information on cart mounted models

HydroFoamer Models

Model	Capacity	Approximate Dilution Range	
		Max.*	Min.
481	96 ounces (2.8 liters)	128:1	12:1
483	48 ounces (1.4 liters)	128:1	12:1

Options and Accessories

Model	Description
131	Inlet water hose, 1/2" x 25', black
132	Inlet water hose, 1/2" x 25', white
137	Foamer end cap screen; aerates solution to produce a thicker foam
116	Container holding shelf, for storage of foamers/sprayers when not in use

HydroChem Models

Model	Number of Products	Eductor Flow Rate	Rinse Flow Rate (GPM)	Approximate Dilution Range	
				Max	Min
918	1	3.5	5.0	512:1	10:1
919	2	3.5	5.0	512:1	10:1

*Leaner dilutions possible – Contact your sales representative
